

UNIVERSITY OF
LINCOLN

Consolidation of Post-Qualifying Professional Development

For all students who have not previously studied at Masters level, the selection process requires you to complete a written piece of work, which will be assessed for entry to the programme. We require you to demonstrate that you are able to write at a level beyond describing your practice, to writing critically and analytically, using source materials to evidence your knowledge. We will also look for evidence of reflective practice. You must attach a reference list to your work and a brief outline of the case (which will not be part of the word count). The main piece should not exceed 1000 words.

Written Task

On our programme, you will be asked to consider your professional development, post-qualification.

Please write a critical and reflective account of a single case that has had a significant effect on the development of your skills, knowledge and practice.

Guidance

This piece of work is not a description of the case, but a discussion of your learning. Please identify only two or three areas to focus on, rather than trying to discuss the whole management of the case.

For example, you may wish to discuss knowledge developed in relation to working with a child with a disability or skills developed in communication and learning in relation to inter-agency working.

Please email submissions to: cpd@lincoln.ac.uk
